

## 9th EMES International Research Conference on Social Enterprise

**Act locally, change globally: Social enterprises and  
cooperatives for more resilient economies and societies**

### **Guidelines for full paper submission**

**September 11-14, 2023**

Frankfurt University of Applied Sciences, Frankfurt (Germany)

#### **I. Formatting guidelines**

---

To the largest possible extent, authors are invited to respect the following minimal guidelines.

**Naming your file:** Please use the following naming rule to facilitate the management of the received papers:

9EMESconf\_FullPaper\_**Lastnamemainauthor-Lastname2ndauthor**.doc/.pdf

**Papers' length:** full papers should not exceed 12,000 words, including references.

**Characters' type:** Arial 11. Use one line space between paragraphs.

**Title styles:** maximum 4 levels, numbered (1., 1.1., 1.1.1. and 1.1.1.1.).

**Boxes, tables, graphs, figures** must be numbered and titled.

Use **footnotes** (not endnotes). Characters' type for footnotes: Times New Roman 10.

Use double **quotation marks** (") for dialogue and quoted material in the text. Single quotation marks (') are used for quotes within quotes.

**Punctuation:** Use no space before and a single space after: full points, commas, colons, semicolons, question mark or any other closing punctuation mark.

Example of comma (,), example of full point (.), example of colon (:), example of semicolon (;), example of question mark (?)

**Reference system:** The reference system adopted is the Harvard reference system: cite the authors' surname, the year of publication and the page reference immediately after the quoted material.

*"In Europe, the concept made its first appearance in the early 1990s, at the very heart of the third sector, following an impetus that was first Italian, linked closely with the co-operative movement." (Defourny and Nyssens 2006: 4)*

When the authors' surname is cited in the text, just cite the year of publication – and of course, if applicable, the page reference – immediately after the name.

*According to Laville and Nyssens (2001), social capital is a fully fledged production factor within social enterprises since it is part of the production process and it improves it, mainly by reducing the transaction costs (...) and by reducing the production costs (...).*

If you refer to two or more works by one author in the same year, distinguish them as 1988a, 1988b, etc. When they are more than two authors, cite the first author's surname, followed by "et al."

*The authors conclude that "nearly all the organizations in the sample analyzed declared that they had more than one goal" (Campi et al. 2006: 45), which confirms the multiple-goal hypothesis.*

When citing two references or more, use a semicolon.

*To a large extent, these interpretations of the economic role of third sector organisations are compatible (Anheier and Ben-Ner 1997; Krashinsky 1997), and they have often been used jointly.*
